

UNIVERSITY *of*
TASMANIA

G R A D U A T I O N

ACKNOWLEDGEMENT OF COUNTRY

We acknowledge the Palawa/Pakana people of lutruwita (Tasmania) and the Gadigal people of Sydney, the traditional owners and custodians of the land upon which we live and work. We pay respects to Elders past and present as the knowledge holders and sharers. We honour their strong culture and knowledge as vital to the self-determination, wellbeing and strength of their communities. We stand for a future that profoundly respects and acknowledges Aboriginal perspectives, culture, language and history.

UNIVERSITY MEDAL AND ARMS

The University Medal is the highest academic award given to undergraduate students.

Medals are awarded to students who have a consistent record of exceptional academic achievement at all levels of a bachelor's degree program, and qualify for a bachelor's degree with first class honours. Up to thirteen medals can be awarded annually.

The medal incorporates the University Arms. Originally, the

University used the seal of the Tasmanian Council of Education. In 1937, a competition was held for the design of a coat of arms from University graduates. A design by Mr Egbert Holder Harry, a graduate and Launceston resident, was declared the winner.

THE UNIVERSITY MACE

Most Australian universities have a ceremonial mace that symbolises the university's ethos. Before becoming ceremonial, maces were a real weapon, carried into battle by medieval knights and war-like bishops. Now, the mace is purely symbolic, and represents authority.

When the University of Tasmania was inaugurated in 1890, the symbol of authority used was a simple black rod. But in 1982, the University commissioned local sculptor Peter Taylor to design and coordinate the creation of a mace, with contributions from a number of Tasmanian artisans.

The head is made of ceramic and bronze, with 12 ceramic 'vanes' alternately

enamelled in the University colours of red and blue. Gilding is applied to the outer edges of each of the vanes and is topped by a bronze crown. Four of the 12 ceramic vanes extend through the crown, and form a visual focus for the paws of four bronze thylacines (Tasmanian tigers) around the crown.

Source: Australiana 2012, February, vol.34, no.1, p.29.

THE BLACK ROD

In 2014, a black rod was reintroduced as a symbol of authority at ceremonial occasions.

The use of a black rod dates back to the 14th century in Britain, where an Usher of the Black Rod served the monarch in the British House of Lords. The Black Rod was used to discipline anyone who offended the Crown.

The University's Black Rod is made from Hydrowood Blackheart Sassafras. Hydrowood is sustainably recovered timber from the bed of Lake Pieman, which was flooded in the 1970s. It is now highly valued by furniture designers and woodworkers, and is also used in high-end residential and commercial construction.

The Centre for Sustainable Architecture with Wood, an extension of the University of Tasmania's School of Architecture and Design, collaborates with the State Government and Sustainable Forest Management on the Hydrowood project. The Centre's role is to provide timber producers with recovered logs that can be economically and efficiently converted into usable products.

The University's Black Rod is designed by award-winning designer and former Program Director of Furniture Design, Simon Ancher.

A HISTORY OF GRADUATIONS

Graduation ceremonies go back a long way – some parts of modern ceremonies date back to the 12th century. When the Chancellor confers degrees to graduands, their words are a translation of the Latin form used in the Middle Ages.

In those times, the Chancellor's authority came from the church, which had a monopoly on education, partly because clerics were almost the only people who could read and write. As a result, the only person who could license a teacher was the bishop of a diocese, a task he could deputise to his chief secretary or chancellor. But as learning spread and teachers needed to work outside of a single diocese, the Chancellor's authority had to come from the Pope.

This changed at the Reformation, when the Crown assumed all the rights that had previously been the Pope's in England. As a result, all subsequent universities in England have been created by Royal Charter – and chancellors now wear robes similar to those of the Lord Chancellor of England, rather than the ecclesiastical robes of the Middle Ages.

In the 12th century, academic staff were called 'masters' or MAs. They hired their own lecture rooms and charged their own fees, and formed guilds or unions, which is what 'universitas' originally meant. As they insisted that they alone should determine who could be teachers, they found themselves in conflict with the Chancellor.

In the 13th century, the Pope decreed that chancellors were obliged to confer degrees on all those nominated by the masters. This is why the Dean, as spokesperson for the academic staff, reads out the names of those who are to receive degrees, and why the masters watch to see that the Chancellor or their deputy does their job.

The word 'degree' comes from the Latin gradus, which means 'a step', which is also where we get 'graduand'. When students are admitted to a bachelor's degree they move one step up, and when they are admitted to a master's degree they climb again to become part of the masters guild, or universitas.

The public is also an important participant in the graduation ceremony, as the proceedings need to be seen and heard by valid witnesses. The public hears the words of the Dean and the Chancellor and sees the new graduates dressed in their respective gowns or robes.
